BEFORE STARTING YOUR MACHINE

Read your product manual thoroughly, then scan this QR code to access the training portal.

Securing the Mini-RocketBox by attaching the feet and adhering the suction cup to a study, heavy table will ensure your machine remains stable during vibration.

AFTER STARTING YOUR MACHINE

Make sure to properly prepare your material by ensuring the correct grind size and moisture is achieved.

Please note: the Mini-RocketBox needs **FIVE** dry runs with all trays before using.

Don't run out of cones! We carry the highest quality pre-rolled cones in a variety of paper types, colors, and sizes to meet your needs. Order online at stmcanna.com/store
