

REVOLUTION

COMMERCIAL CANNABIS GRINDER

(509) 204-3148 (CALL OR TEXT) | STMCANNA.COM | SALES@STMCANNA.COM

REVOLUTION 2.0

COMMERCIAL CANNABIS GRINDER

\$17,545

Designed specifically for cannabis, the Revolution 2.0 delivers a homogenous, consistent grind, optimal for evenly packed pre-rolls and high-yield extraction.

- **Minimizes Terpene, Cannabinoid Loss**
- **Self-Regulating, Closed-Loop System to Prevent Clogs**
- **Auto-Blade Oscillation Creating Scissor-Like Cuts**
- **Auger Timing & Blade Speed Control**
- **Continuous Feed for Lower Labor Costs**

1-YEAR
WARRANTY

OSHA
COMPLIANT

MADE IN
USA

INCLUDES:

DUAL-BLADE SYSTEM

FINE PARTICLE SCREEN

COARSE PARTICLE SCREEN

CUT-PROOF SAFETY GLOVES

REVOLUTION SUB-ZERO

COMMERCIAL CANNABIS GRINDER

\$27,225

Suitable for dry/cured and cryogenically frozen flower, the reimagined Sub-Zero upgrade prevents subsequent degradation of volatile terpenes, trichomes, and cannabinoid profiles by grinding in a low-temperature environment.

- **Sub-Zero Freezer & Refrigerator Safe**
- **Maintains Organic Compounds for Peak Potency, Flavor, & Aroma**
- **Increases Uniformity for Higher Efficiency & Yield in Extraction**
- **Excellent for Live Resin, Solventless, Pre-Rolls, & Other Processing**

**1-YEAR
WARRANTY**

**OSHA
COMPLIANT**

**MADE IN
USA**

INCLUDES:

DUAL-BLADE SYSTEM

FINE PARTICLE SCREEN

COARSE PARTICLE SCREEN

CUT-PROOF SAFETY GLOVES

WHY THE REVOLUTION?

PROPRIETARY BLADE SYSTEM

Say goodbye to aggressively milling, grinding, or weed-whacking your precious flower to dust. The Revolution 2.0 utilizes an extremely sharp, custom dual-blade system to slice through flower directly and with scissor-like motions for the cleanest cuts possible, minimizing product degradation and maximizing potency.

AVOID CLOGGING & BUILD-UP

The closed-loop system self-regulates the feed of material by stopping the auger to allow for blade chamber clearing when high amperage (a clog) is detected. Auto-blade oscillation then compels both the serrated and "S" blade to change direction every 5 seconds, creating multi-dimensional cuts and clearing the way to prevent clogs before they happen.

INCREASE PROFIT MARGINS

The Revolution 2.0 produces the proper particle sizing crucial to pre-roll efficacy and achieving the highest yields in extraction. In addition to product cost savings, by eliminating hand-feeding and the constant emptying of a barrel or bag, the grinder helps increase your profit margins by speeding up processing and decreasing your labor costs.

WHY MAKE IT A SUB-ZERO?

PROTECTS CANNABINOID PROFILES

Save your precious terpenes - the process of grinding dry, cured, or frozen cannabis in a controlled, low-temperature environment avoids additional loss of invaluable oils and chemical compounds by eliminating heat-induced volatility and degradation.

BUILT-IN TEMPERATURE CONTROL

The Revolution Sub-Zero has been engineered to operate in environments at or below -20 F / -28.9 C with its built-in temperature control and pre-heating technology.

PAIRS WELL WITH CRYOFREEZING

Introducing liquid nitrogen to freshly harvested flower promotes the formation of much smaller ice crystals, which causes less damage to cellular structure and helps to retain the plant's full cannabinoid profile. With the Sub-Zero's low temp-safe design, this system is perfectly optimized for gently grinding cryo-frozen flower.

ACCESSORIES

Dual-Blade Set

\$1,437.50

Highly-Polished, Food-Grade 304 Stainless Steel Serrated Blades

Silicone Spray

\$17.24

Food-Grade Silicone Spray

Fine Particle Screen

\$431.25

5/32" Screen Size Food-Grade 304 Stainless Steel

\$22.99

One Pair of High Performance, Cut-Proof Safety Gloves

Coarse Particle Screen

\$431.25

3/16" Screen Size Food-Grade 304 Stainless Steel

Maintenance Bundle

\$2,127.49

Cut-Proof Gloves, Silicone Spray, Extra Dual-Blade Set & Particle Screen Set

STM PRE-ROLL BUNDLES

The perfect bundle to get your facility started in optimal pre-roll prep and production.

MINI PRE-ROLL BUNDLE \$13,200

(1) Mini-RocketBox Pre-Roll Machine

INCLUDED ACCESSORIES

- (1) 143-Joint Top Tray
- (1) 143-Joint Bottom Tray
- (1) Mini Loading Box
- (1) Density Testing Cylinder

(1) Mini-Revolution Grinder

INCLUDED ACCESSORIES

- (1) Fine Blade Disc
- (1) Coarse Blade Disc
- (1) Collection Bin
- (1) 2-Pack Extra Blade Discs

2.0 PRE-ROLL BUNDLE \$37,812

(1) RocketBox 2.0 Pre-Roll Machine

INCLUDED ACCESSORIES

- (1) 453-Joint Bottom Tray
- (1) 453-Joint Top Tray
- (1) Loading Box
- (1) Density Testing Cylinder

(1) Revolution 2.0 Commercial Grinder

INCLUDED ACCESSORIES

- (1) Dual-Blade Set
- (1) Fine Particle Screen
- (1) Coarse Particle Screen
- (1) Pair of Cut-Proof Safety Gloves

FREQUENTLY ASKED QUESTIONS

HOW DOES THE REVOLUTION 2.0 WORK AND COMPARE TO OTHERS?

Versus forcibly breaking down flower into smaller particle sizes using a plastic whip, blender or milling mechanism, STM's proprietary, sharp dual-blade system minimizes product degradation by carefully slicing through material with direct cuts and a scissor-like motion.

This system reduces trichome loss and helps to maintain flower quality and integrity. To combat the loss of precious terpenes and cannabinoids, the Revolution 2.0 runs at a significantly lower RPM than competitors and generally stays below volatile temperatures.

HOW DOES THE REVOLUTION 2.0 DEAL WITH SEEDS AND STEMS?

The Revolution 2.0 is meant for general use with flower buds versus whole plant material, trim, seeds, or stems. "Quality-In Quality-Out" is a key factor with any industrial hemp and marijuana equipment, so like anything else, we always recommended to destem and deseed your material as much as possible prior to machine use.

Equipped with a dual-blade set, the STM Revolution 2.0 will slice through most stems entering the system to produce particles closest in size to the flower itself. Homogeneous material is important in ensuring pre-roll papers are not punctured and that stems don't interfere too much with yields in extraction.
