	<ul style="list-style-type: none">• Variable Speed Control (low, medium, and high)• Interchangeable Fine & Coarse Blades• Less Terpene, Cannabinoid Loss Than Competitors• Homogenous & Consistent Flower Particles

Key Features	<ul style="list-style-type: none"> • Designed, Manufactured & Assembled in the USA • Tabletop Unit, Ergonomic for Small Production Spaces • Quiet Operation • Designed for Easy Operation, Maintenance and Cleaning • 1-year Parts & Labor Warranty
Frequently Asked Questions	<p>How much can the Mini-Revolution grind?</p> <p>The Mini-Rev is as fast as a person can fill the hopper and feed the grinder. The Mini-Revolution was designed for smaller operations unlike the full-sized Revolution 2.0 which was built for high volume continuous grinding.</p> <p>What kind of blades come with it?</p> <p>The Mini-Revolution grinder comes with 2 blades - one course and one fine. They are easily swappable with the easy removal of the front hopper wing nuts and 5 allen bolts.</p> <p>Is the Mini-Revolution easy to operate and maintain?</p> <p>The Mini-Rev is quick and easy to learn how to use and operate. Cleaning is simple with quick disassembly of all moving parts.</p>
Selling Point vs Competitors	<p>What is the advantage of the Mini-Revolution over other grinders?</p> <ul style="list-style-type: none"> • It cuts and doesn't whip or extrude like the Futurola whip shredders or the Sense grinder for a more homogenous and consistent grind. • The Mini Rev is durable and super quiet. • Other small machines are plastic. The Mini is commercial food grade quality metal construction and industrial components. • No other machines is easy to operate, or clean with just soap and water and/or iso alcohol. • The Mini comes with a 1-year parts & labor warranty. • All STM Products are designed and manufactured in the U.S.A.

* Results will differ depending on the material, strain, equipment, personnel, facility, controls and the specific processes employed. STM is dedicated to helping you attain optimal results through our equipment and processes.

The banner features the STM logo on the left, with the text "VOCABULARIES BY NATURE" below it. The main title "Revolution Grinder Comparison" is centered in large white font. Below the title, there are three white boxes on a dark green background. The first box is labeled "FEATURES" and is empty. The second box is labeled "MINI-REVOLUTION" and contains a small image of the Mini-Revolution grinder. The third box is labeled "REVOLUTION 2.0" and contains a small image of the Revolution 2.0 grinder.
