<b>Key Features</b>	<ul style="list-style-type: none"> <li>● <b>Close a 72 joint tray in 30 seconds (33% faster than previous gen).</b></li> <li>● <b>Close up to 3600 joints per hour.</b></li> <li>● <b>New enhanced technology with 4x the power (than previous gen).</b></li> <li>● <b>Best in class crisp sealed professional Dutch Crown finish.</b></li> <li>● <b>Select joint size with a touch of a button on intuitive touch screen.</b></li> <li>● <b>joint sizes: 70mm, 84mm, 98mm and 109mm, Custom</b></li> <li>● <b>Effortless cleaning and maintenance for hassle-free operation.</b></li> <li>● <b>Designed for easy operation, maintenance and cleaning.</b></li> <li>● <b>For use independently or with one-tray workflow system.*</b></li> <li>● <b>1-Year parts and labor warranty.</b></li> </ul>
	<p><b>What is the difference between the new model &amp; the previous generations?</b></p> <p>The newest version for 2025 is the 3rd generation of the Atomic Closer. It is the most powerful and fastest Atomic Closer we have ever produced:</p> <ul style="list-style-type: none"> <li>○ <b>Unleash Unprecedented Speed: Up to 33% faster.</b></li> <li>○ <b>Enhanced Technology Delivers 4x the Power.</b></li> <li>○ <b>Next-Generation 8-Motor Drive Technology.</b></li> </ul> <p><b>What separates it from the competition?</b></p> <p>There is no other machine on the market it like it at this price point which dramatically saves labor costs in the biggest pain point in the pre-roll production process.</p> <p><b>Twist vs Dutch crown finish?</b></p> <p>Many agree that the Dutch crown looks more professional and premium than the standard twist end. The most important reason to dutch crown may be for a better smoking experience without canoeing. Most of our competitors twist tie because, for a machine, it is easier.</p>

## Frequently Asked Questions

### How does the Atomic Closer save money?

Closing joints is time consuming and labor costly. The Atomic Closer has a fast return on investment (ROI) in 3 major ways:

- Drastically reduces labor costs by automating joint closing.
- Automated closing allows for rapid scaling of production for more profits.
- Re-allocate saved labor to other areas.

### Does the Closer work with the One-Tray Workflow?

The Closer can function independently, however, works most efficiently as part of the one-tray workflow process and with other STM machinery.

### Can you use the Atomic Closer with other filling machines?

You can use the Atomic Closer with other machines, such as the Knockbox. However, for it to work properly, joints need to be transferred to STM 72-joint trays which is why we recommend using the Closer with STM filling machines for the best efficiency.

### What joint sizes can the Atomic Closer crown?

The Atomic Closer can close 70mm dog walkers, 84mm, 98mm and both 109 regular and 109 oversized pre-rolls.

### Is the Atomic Closer easy to clean?

Cleaning and maintaining the Atomic Closer is effortless in minutes with compressed air, grease, isopropyl alcohol and/or soap in water.

## Selling Point vs Competitors

### Atomic Closer vs the Competition

- Fastest Closer on the market which Dutch crowns - NO twisting.
- Most cost effective solution for a professional Dutch Crown close.
- Recover ROI in weeks with a substantial reduction in labor costs.
- Rapidly scale output with automated pre-roll closing.
- Compact & built from industrial grade metals and components.
- Select joint size with a touch of a button on 7" touch screen.
- Easy to operate, maintenance and clean within minutes.
- All STM Products are designed and manufactured in the U.S.A.
- 1-year parts & labor warranty. One of the best in the industry.

\* 143-joint tray is not compatible with the one-tray workflow, only the 72-joint tray.

\* One-tray workflow requires the use of STM 72-joint trays only.
