RollCraft ATC

A compact closing solution built specifically for craft-scale pre-roll production.

\$24,995

The RollCraft ATC brings fast, consistent pre-roll closing to craft operators ready to move beyond manual work. Using STM-derived technology, it finishes 72 pre-rolls in under 60 seconds - reducing labor strain while delivering uniform Dutch crown finishes every cycle.

Compact, portable, and easy to run, the ATC adds reliable automation without the cost or complexity of industrial systems.

INCLUDES:

DUTCH CROWN

70MM, 84MM, 98MM, 109MM

SIMPLE ANALOG CONTROLS

Automated Dutch Crown Closing- Without the Industrial Price

Close 72 pre-rolls in under 90 seconds with consistent crown finishes using compact automation designed for craft and growing producers.

\$24,995

- **72 pre-roll capacity per cycle**
- **< 60 second closing cycle**
- **Compact, lightweight modular design**
- **Built for craft and mid-scale pre-roll production**
- **Simple analog operation with minimal training**
- **Accessible design for fast cleaning and maintenance**

Requirements & Specifications

- **Air Source: Required**
- **Power: 110V / 220V**
- **Weight: 70 lbs (31.75 kg)**
- **Construction: Aluminum & steel**

Pre-roll Automation Combo: Fill + Close \$29,995

★ Best Value - MRB + ATC Jump Starter System

30–70% less than STM premium, ~95% less than enterprise. Typical ROI: 3–6 months from labor savings alone.

Key Features:

- Fill + close up to 10,000/day with 1–2 operators.
- 72 joints every 3 minutes.
- Works with 70mm–109mm cones.
- Retail-ready Dutch crown finish.
- Compact, easy to clean, quick setup.
- (ATC requires external air.)

RC Jump Starter Includes:

- MRB + ATC machines
- 2 extra trays (\$1,250 value)
- QR metal knobs (\$85) + 1 catch bins (\$25)
- Up to 2 hours virtual training (\$800 value)

Accessories kit (hoses, connectors, loading box, risers, etc. - \$250 value)

(509) 204-3164
